PISCIONERI ANDREA

UX & UI designer | Web designer & developer | Graphic designer | Front & Back-End developer | Photographer | Drone pilot | Odoo web designer & developer | App developer

PROFESSIONAL PROFILE

I graduated with honors in Graphic Design from the Santa Giulia Academy of Fine Arts in Brescia, and subsequently earned a Master's degree in "Digital Design & Communication" from theLibera Accademia di Belle Arti LABA Brescia, with top marks.

Throughout my career, I have gained valuable experience through internships and collaborations in the graphics field, demonstrating commitment and motivation both academically and professionally.

My training includes solid practical expertise in areas such as Web Design, photography, and 3D Rendering, with proficiency in a wide range of software, including the Adobe Suite.

I have also successfully completed a specific course in occupational health and safety, demonstrating my commitment to ensuring a safe and efficient professional environment. I am convinced that determination, the ability to learn quickly, and teamwork are essential to facing future challenges in the design field. I am ready to put my skills to work on new projects.

WORK EXPERIENCE

INTERN

Centro MBE 0546 / Albino (BG) Lombardy 2017-2018

In my new job, I honed my skills in various client services, including graphic design and printing, stationery sales, and goods transportation/shipping. Initially working alongside an expert graphic designer, i had the opportunity to learn and improve my working methods by tackling various commissions.

During this experience, I managed a wide range of projects, including logos, restaurant menus, posters, billboards, brochures, leaflets, stamps, window displays, photomontages, and websites. **Despite the initial challenges** due to my introverted nature, managing client relationships helped me develop greater flexibility and hone my communication skills. This experience was crucial to my technical growth, and also **contributed significantly to my personal development.**

GRAPHIC DESIGNER

TVBEAT.SRL / Gorle (BG) Lombardy 2021-2022

Throughout my career, I dedicated myself to creating graphics, posters, cards, and video animations for a food delivery company operating in the Bergamo province.

This experience was crucial in expanding my graphic design skills, allowing me to independently manage a wide range of projects, including in collaboration with other provinces and regions across Italy.

In addition to producing high-quality visual content, I actively contributed to the company's strategy by creating engaging stories and posts for the company's various social media channels. **Participating in company meetings, both internally with innovative proposals** for improving the company and externally with clients to understand and meet their needs, further enriched my professional experience

UX/UI DESIGNER & WEB DESIGNER

Denani S.R.L. / Lombardy – 2024 – current

I currently work at Denani S.R.L. as a UX/UI and web designer, designing and developing digital experiences that combine functionality and aesthetics. My role involves creating intuitive and responsive interfaces, **designing websites, and optimizing the user experience,** with a focus on visual consistency and the communication objectives of the company and its clients.

I also work in branding and graphics, developing logos, promotional materials, and digital content for social media and web channels. My experience at Denani has allowed me to consolidate **my skills in 360° digital design, from creative conception to technical implementation,** including dialogue with clients and internal teams.

This experience has given me the opportunity to grow professionally and become a key player in the company's visual and digital communications, developing versatility and confidence in managing complex projects and **continuing to hone my skills in UX, UI, and web design.**

STRENGTHS

EDUCATION

PROFESSIONAL DIPLOMA IN COMMERCIAL PROMOTION AND DESIGN FOR VISUAL ADVERTISING COMMUNICATIONS

Istituto Isis Oscar Romero Albino (BG) Lombardy 2015-2020

Technical Skills:
My skills include mathematical knowledge and a deep understanding of business structures, along with the ability to prepare financial statements and invoices. I am fluent in English, French, and German. I also have extensive knowledge of 3D graphics, **programming, and the Adobe suite.**

Professional Skills:
I excel at creating logos, catalogs, websites, brochures, leaflets, and posters of various sizes and layouts, focusing primarily on graphic design. Throughout my educational and professional journey, **I've had the privilege of participating** in numerous activities that have significantly impacted my professional growth. In short, I'll share the experiences that have had a particular impact on me.

Project Work On The Road:
Collaboration with On the Road Social Cooperative, committed to defending human and civil rights and fighting against all forms of discrimination. I visited their headquarters in Cassano d'Adda (BG) to gain a detailed understanding of their initiatives, which culminated in a conference at the **Catholic University ofMilan on the difficult conditions faced by young people today.**

Open Night:
Presentation of the **"Commercial Promotion and Design for Visual Advertising Communication"** program at the Isis Oscar Romero Institute.

Open Day:
Presentation of the **"Commercial Promotion and Design for Visual Advertising Communication" program at the "Gioele Solari"** Middle School in Albino (BG).

Smart Future Academy:
Participation in a project for high school students, aimed at guiding them in post-graduate career choices through experiences with **outstanding figures in entrepreneurship, culture, science, and art.**

Project Work Remo Ponti:
Collaboration with Bergamo-born sculptor Remo Ponti. **I created a logo representative of his art and created a brochure and online catalog** to convey the emotions associated with the creation of his works.

Workplace Safety Course:
Participation in a 12-hour course at the Oscar Romero Institute in Albino.

Language Skills:

Italian **(native) -** English **(B2 level) -** French **(B2 level) -** German **(A1 level)**

FINAL RATING 87/100

BACHELOR'S DEGREE IN GRAPHIC DESIGN

Accademia di belle arti Santa Giulia (BS) / 2020 - 2023

Technical Skills:
My education at the Academy of Fine Arts, specializing in graphic design, enriched my technical skills. **Through the practice of advanced graphic design, digital illustration, and professional photography, I honed my ability to communicate effectively and engagingly.** Learning web design and animation allowed me to explore new creative horizons, while project management strengthened my planning and organization skills. This training has prepared me for an exciting and rewarding career in the visual arts.

Professional Skills:
My professional skills have developed through significant experiences in the field of graphic design. **I had the opportunity to see my talent recognized when my project won and was included among the top 50 in Europe at ICHEP**, an achievement that strengthened my determination and ability to tackle high-level challenges. With a solid foundation in digital illustration and advanced graphic design, I have demonstrated the ability to create engaging and communicative visual materials.
My experience in graphic design, photography and post-production, web design, animation, and UX and UI design has allowed me to expand my creative repertoire, while my skill in branding and advertising has helped me develop effective communication strategies. Managing complex projects has strengthened my organizational and decision-making skills, preparing me for demanding professional challenges in the visual arts sector.

FINAL RATING: 110/110 with honors
Thesis: "The creation of the design company "Reteye" to raise awareness and make color accessible to colorblind people."

SKILLS AND COMPETENCES

My skills and abilities stem from professional experiences that have shaped my ability to communicate effectively and flexibly. Gifted with excellent communication skills, **I have honed these abilities through the experiences mentioned above, demonstrating an adaptability** that enriches my professional profile. My flexibility and availability are distinctive traits that manifest themselves in my ability to adapt to different situations.

My organizational skills have been highlighted by my precise task management, with a particular focus on team collaboration to achieve common goals. Professionally, I have demonstrated solid expertise in the creation of new graphic design projects and the effective management of shipping and order collection. **My digital and problem-solving skills are cutting-edge, with proficiency in the Adobe Suite and knowledge of HTML, CSS, and JavaScript.**

I hold driving licenses (AM, A1, A2, B) and demonstrate analytical and creative thinking and problem-solving skills, along with a goal-oriented approach and a positive, proactive attitude to teamwork. With in-depth IT skills and effective time management, I stand out for my precision and attention to detail.

MASTER'S DEGREE IN "DIGITAL DESIGN & COMMUNICATION"

Libera Accademia di Belle Arti LABA (BS) / 2023 - 2025

Technical Skills:

My degree in Digital Design and Communication allowed me to develop an integrated vision of creativity and digital technologies. I explored advanced web design, 3D modeling and rendering, motion graphics, and photography applied to visual communication, strengthening my ability to design complete and effective digital experiences.

The use of tools such as **Adobe Creative Suite, Webflow, Figma, Blender, and Cinema4D,** combined with languages and frameworks such as **HTML, CSS, JavaScript, and Vue.js,** expanded my practical skills, allowing me to tackle complex digital projects with an innovative and multidisciplinary approach.

Professional Skills:

During my two-year program, I worked on numerous academic and professional projects that combined design, user experience, and web development, including my thesis project Lumyn, **an AI chatbot for e-commerce developed in Vue.js, and the AirPods Pro 2 project, where I combined 3D rendering and web design in Webflow.**

My experience has allowed me to hone my skills in UX/UI design, digital branding, responsive interface design, and interactive visual communication, while also strengthening my ability to manage complex projects and collaborate within multidisciplinary teams.

FINAL RATING: 110/110 with honors
Thesis: Lumyn – AI Chatbot for E-commerce
